OTHERS PRESENT (3): Alan Snook (DKS Associates), Tim Wilson (ODOT), Elise Shearer (CCAC)

STAFF PRESENT: Mike McCarthy, Sr. Project Engineer – Public Works

Recap of meeting submitted by Mike McCarthy:

Pacific/Gaarde/McDonald

Since our last meeting on this conceptual design project, the project team has held a public open house, discussion at the August 9 City Council meeting, discussions with ODOT management, and conducted further analysis of the alternatives.

The project team reported that Tigard currently has about \$1 million budgeted for this project ODOT currently has \$1 million budgeted for this project, plus another \$3 million contingent upon identification of a viable project alternative.

Both agencies have said that it is highly unlikely that any significant additional funding would be available any time soon. Both expressed a desire to find a solution that would use the available funding to make a significant difference at the intersection.

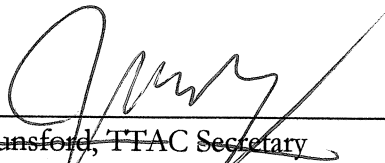

Attached are the handouts prepared by the consultant team and distributed at tonight's meeting. This summarizes the eight alternatives considered, along with the effect of each on traffic flow, capacity, safety, property impact, business impact, cost, and other factors. Please review the attached .pdf files for more information before reading on.

If you would like us to take a different course of action, please let me know by Monday so we can discuss it at our regular meeting time next Wednesday.

October Meeting Cancelled

ATTEST: Christopher Warren, Chairman

~~Patty Lunsford, TTAC Secretary~~

Judith Gray, Staff liaison
