

GENERAL GOVERNMENT ORGANIZATION CHART

GENERAL GOVERNMENT

URBAN SERVICES

GENERAL GOVERNMENT

This is a historical program. The financials for this program are being closed in FY 2008-09. Since there are no division budgets to consider, they are not included in this section of the document. The history of this program is reflected in the higher level fund summary and city-wide statements.

Effective with the FY 2008-09 Budget, costs that were previously budgeted in this program have been distributed to the other programs in order to more accurately reflect the true costs of the various city functions. The Urban Services budget for FY 2009-10 reflects the final costs for closing out the Urban Services and Urban Services Traffic Impact Fee Funds.

This program historically included the cost for City Attorney, Citywide Support, Urban Services, and Technology. The City Attorney budget included all attorney costs for the City. The City of Tigard does not have an in-house attorney, but instead contracts for both general and labor council. Attorney costs are allocated among the various funding sources depending upon each Division's usage.
