

June 2008

UTILITY WORKER II

DEFINITION

Under general supervision, performs a variety of work in the construction, modification, maintenance, repair, and operation of City infrastructure, including streets, traffic controls and structures, storm and sanitary sewers, water systems, parks, landscapes, and street trees; and performs related work as required.

SUPERVISION RECEIVED AND EXERCISED

Receives general supervision and/or technical and functional direction from assigned supervisory or management personnel. May exercise technical and functional direction over volunteers or seasonal staff.

CLASS CHARACTERISTICS

This is the journey-level class in the public works utility series that performs the full range of duties required to ensure that City infrastructure, systems, and facilities to which assigned are maintained in a safe and effective working condition and provide the highest level of safety for public use. Responsibilities include performing a wide variety of tasks in the inspection, maintenance and repair of assigned facilities and systems in a timely manner. This class is distinguished from Senior Utility Worker in that the latter exercises technical and functional direction over lower-level staff and is capable of performing the most complex duties assigned to the division.

EXAMPLES OF ESSENTIAL FUNCTIONS (Illustrative Only)

Management reserves the rights to add, modify, change, or rescind the work assignments of different positions and to make reasonable accommodations where appropriate so that qualified employees can perform the essential functions of the job.

When performing the street maintenance assignment:

- Provides for the maintenance and repairs of City streets and roadways, including shoveling and spreading asphalt in patching, painting and striping, repairing, and reconstructing streets.
- Provides installation, maintenance, and repair of traffic signs, including making signs, and installing sign posts and signs in accordance with City, State, and Federal Codes.
- Performs a variety of duties in the maintenance of drainage structures, such as catch basins, storm drains, and outfalls, to ensure efficient drainage.
- Performs a variety of weed abatement duties to eliminate hazards to vehicles and pedestrians.
- Maintains City streets, right of ways, and alleys to ensure safe and efficient access for the public.
- Sands streets during snow/ice storms as required.
- Participates in cleaning hazardous materials spills as required.

When performing the water distribution systems assignment:

- Inspects water services for compliance with established codes and/or damaged or worn parts, and makes repairs as necessary, including pump stations.

- Repairs transmission and distribution water mains, including installing parts as necessary.
- Installs, repairs, and replaces water services and fire hydrants, including installing parts and fittings and performing scheduled maintenance and making any repairs.
- Performs visual checks of meter conditions and connections to ensure efficient operations, and reports damaged or non-functioning meters.
- Reads water meters; installs, repairs, or replaces meters as necessary to ensure efficient operation; replaces and maintains meter boxes and lid covers; investigates leaks and reports malfunctions; completes orders for meter repairs.
- Assists the Utility Billing Department by obtaining meter reads, turning water on or off, locking and unlocking meters, and delivering notices.
- Performs location and marking for all City owned utilities; retrieves data; maintains accurate records and files; assists contractors and other City staff as required.
- Performs asphalt and concrete repair and patch work; removes trees, brush, and debris to access water meters, boxes, and fire hydrants.

When performing the wastewater collections/storm systems assignment:

- Maintains wastewater lines to ensure continuous flow of City wastes.
- Provides installation, maintenance, and repair of wastewater mains and laterals.
- Operates and maintains the City's close circuit television system and equipment used to monitor and prevent problems in the wastewater system.
- Installs and maintains wastewater manholes, and makes minor repairs as directed.
- Inspects wastewater lines and manholes to ensure compliance with established codes.
- Maintains the City's wastewater collection system in a safe and sanitary manner to ensure safe conditions for the City, including repairing broken wastewater mains and parts, and hydro-cleaning and rodding to ensure clean and open distribution.
- Installs new wastewater/storm laterals and mains.
- Transports contaminated soils and raw sewage to designated areas for proper disposal.
- Performs asphalt and concrete repair and patch work; removes trees, brush, and debris from right-of-ways to access sewer main lines and laterals.
- Generates, reads, and interprets inspection reports and updates maintenance database as required.

When performing the parks assignment:

- Performs a variety of technical landscape construction duties, including planting flowers, shrubs, and trees, pruning and repairing damaged trees, making and repairing tree wells, irrigating, mowing, and fertilizing turf, trimming and planting, fertilizing, and pruning shrubs.
- Inspects, maintains, repairs, and constructs developed and undeveloped parks, playgrounds, athletic, and other related facilities and properties.
- Performs pesticide applications as required, including calculating proper amounts of pesticides, spraying parks, landscapes, and street trees, and completing necessary paperwork.
- Operates specialized vehicles and heavy equipment related to the construction, maintenance, and repair of City parks, landscapes, and street trees, and related facilities, such as aerial lift trucks.
- Installs, inspects, and maintains park equipment and grounds to ensure safe operating conditions for citizens, including basic maintenance duties such as fabrication, painting, and carpentry.
- Maintains parks and landscapes in a clean and safe condition, including picking up trash and maintaining trash receptacles, and cleaning and repairing restrooms.
- Maintains park appearance, including mowing, trimming, edging, fertilizing, watering lawns and other landscaped areas, and removing graffiti.
- Installs and repairs irrigation equipment, including installing irrigation pipes, testing systems, and making repairs.

When performing all assignments:

- Observes safe work methods and makes appropriate use of related safety equipment as required.
- Operates specialized vehicles and a variety of light, medium, and heavy equipment related to the construction, maintenance, and repair City infrastructure, facilities, and systems within the functional area of assignment.
- Operates a variety of hand and power tools and equipment related to work assignment as instructed.
- Maintains work areas in a clean and orderly condition, including securing equipment at the close of the workday.
- Installs street barricades and cones, and controls traffic around work sites to ensure safe conditions for the general public and City workers.
- Provides needed information and demonstrations concerning how to perform certain work tasks to new employees in the same or similar class of positions.
- Responds to after-hours emergencies.
- Performs related duties as assigned.

QUALIFICATIONS

Knowledge of:

- Maintenance principles, practices, tools, and materials for maintaining and repairing water distribution systems, including water hydraulics, valves, pipe materials, pump stations, and water service components; OR storm and sanitary wastewater collection systems, including gravity wastewater lines, manholes, and wastewater cleanouts; OR streets, including traffic signs, street marking, and asphalt and concrete repair; OR parks, including landscape construction, street tree maintenance, irrigation, playgrounds, athletic and sports fields, and other related facilities and properties.
- The operation and minor maintenance of a variety of hand and power tools, vehicles, and power equipment.
- Traffic control procedures and traffic sign regulations.
- Applicable Federal, State, and local laws, codes, and regulations.
- Shop arithmetic.
- Safety equipment and practices related to the work, including the handling of hazardous chemicals.
- Safe driving rules and practices.
- Record keeping principles and procedures.
- Computer software related to work.
- Techniques for providing a high level of customer service to public and City staff, in person and over the telephone.

Ability to:

- Perform construction, modification, maintenance, and repair work on streets; or water distribution systems; or wastewater collection systems; or parks, landscapes, and street trees such as found in the City.
- Operate specialized maintenance and repair equipment related to the area of assignment.
- Set up and operate traffic area construction zones, including cones, barricades, and flagging.
- Locate underground utilities by use of blue prints and electronic locating equipment in accordance with appropriate regulations, depending on assignment.
- Troubleshoot maintenance problems and determine materials and supplies required for repair.
- Make accurate arithmetic calculations.
- Read and interpret construction drawings and specifications.

- Safely and effectively use and operate hand tools, mechanical equipment, power tools, and equipment required for the work.
- Perform routine equipment maintenance.
- Maintain accurate logs, records, and basic written records of work performed.
- Follow department policies and procedures related to assigned duties.
- Understand and follow oral and written instructions.
- Organize own work, set priorities, and meet critical time deadlines.
- Comprehend and use English effectively including producing all forms of communication in a clear, concise and understandable manner to intended audiences.
- Use tact, initiative, prudence, and independent judgment within general policy, procedural, and legal guidelines.
- Establish, maintain, and foster positive and harmonious working relationships with those contacted in the course of work.

Education and Experience:

Any combination of training and experience, which would provide the required knowledge, skills, and abilities is qualifying. A typical way to obtain the required qualifications would be:

Equivalent to the completion of the twelfth (12th) grade and two (2) years of experience in construction, repair, operation, and maintenance of streets, underground utilities, or parks and landscape.

Licenses and Certifications:

- Possession of a valid class A driver's license with the appropriate endorsements and satisfactory driving record.
- Standard First Aid Certificate issued by the American Red Cross.
- CPR Certification.
- Forklift certification, depending on assignment.

If assigned to water distribution systems maintenance:

- Possession of or ability to obtain a Grade I Water Distribution Operator Certification from the State of Oregon within one (1) year of employment.
- Confined Space Entry Certification.
- Competent Person Certification.

If assigned to wastewater collection systems maintenance:

- Possession of or ability to obtain a Grade I Wastewater Collection System Operator Certification from the State of Oregon within one (1) year of employment.
- Confined Space Entry Certification.
- Competent Person Certification.

If assigned to parks maintenance:

- Oregon Department of Agriculture Pesticide License.

PHYSICAL DEMANDS

Must possess mobility to work in the field; strength, stamina, and mobility to perform medium to heavy physical work, to work in confined spaces, around machines, and to climb and descend ladders, and operate varied hand and power tools and construction equipment; vision to read printed materials and a computer screen; and hearing and speech to communicate in person and over the telephone or radio. The job involves fieldwork requiring frequent walking in operational areas to identify problems or hazards. Finger dexterity is needed to access, enter, and retrieve data using a computer keyboard or calculator and

to operate above-mentioned tools and equipment. Positions in this classification bend, stoop, kneel, reach, and climb to perform work and inspect work sites. Employees must possess the ability to lift, carry, push, and pull materials and objects weighing up to 75 pounds and heavier weights with the use of proper equipment.

ENVIRONMENTAL ELEMENTS

Employees work in the field and are exposed to loud noise levels, cold and hot temperatures, inclement weather conditions, road hazards, vibration, confining workspace, chemicals, mechanical and/or electrical hazards, and hazardous physical substances and fumes. Employees may interact with upset staff and/or public and private representatives, and contractors in interpreting and enforcing departmental policies and procedures.
