Trail alignments and locations are illustrative. Trail alignments and locations are subject to change based on development review, final design, engineering, permitting, connectivity and availability of land and funding. Final trail alignments and locations to be determined at the time of city acquisition or in conjunction with development review.

Final street/trail alignments and intersection improvements may change and are subject to final design, engineering, permitting and approval by the applicable road authority.

A new street at this location requires a rule exception per OAR 660-012-0070 because it is outside the Urban Growth Boundary. As such, it is envisioned, not recommended by this plan.
