Definitions:

Households Transitioned to Stable Housing/Alternative Service: This is the number of households in the program that have transitioned directly to housing, or to an alternative service such as family or non-congregate shelter. We consider these to be successful exits that are part of a larger housing case management plan that is supportive and sustainable for our participants.

Households with Neutral Exits: This category refers to households who decide to leave the program on their own and have stated they are able to self-resolve their own situation or need to move due to other factors. For example, we have had individuals leave the program because there is a family emergency they need to attend elsewhere, they have found a job that takes them to a different community, or they feel that the program is not the right fit for them. Households that chose to leave the program are provided with resource/service information and advised on local ordinances around parking/camping.

Households with Non-Voluntary Exits: This category is the number of households that were asked to leave the program because of noncompliance with program guidelines. This includes households that do not engage in a case management plan or follow through on housing. Households that are asked to leave the program are provided with information about alternative services and advised on local ordinances around parking/camping.
